OUR MISSION

Our school was founded to foster a child's mental, emotional, cognitive, rational, and social development from early stages. We aim to guide young minds towards higher education through knowledge, rather than just information. Our focus is on inspiring a lifelong passion for learning, using a holistic approach to prepare students for success in all areas of life.

OUR VISION

Our vision is to empower students to be passionate about learning and be independent, creative thinkers who positively impact their communities. We aim to foster a dynamic learning environment where students can reach their full potential, supported by dedicated teachers who promote respect, collaboration, and innovation. We equip them with the knowledge, skills, and values needed to succeed in a changing world and contribute to a just, equitable, and sustainable society.

CHAIRMAN'S MESSAGE

The aim of education should be to teach the child to think, and not to dictate what to think. This has been the endeavor of ISG ever since its inception! Along with touching the zenith of academic excellence our earnest endeavors at ISG is to help our children fill their life with the light of positivity.

Mr. Narayan Deka

CEO'S MESSAGE

Education is a method that has the power to change both individuals and society. To accomplish this goal, it must serve two purposes: to enlighten the understanding of an individual and to enrich their character. As students spend around 10 hours a day on campus, we as educators have a significant role to play in shaping their education and character development.

Mr. Krishnamurthy Patnaik

Facilities at **ISG**
